Humphrey Slips By Wallace

By THE ASSOCIATED PRESS. Sen. Hubert H. Humphrey, a slim victor over Alabama Gov. George C. Wallace in the Indiana Democratic primary, slung to a narrow lead over Sen. George S. McGovern in Ohio today as the tightest 1972 primary headed toward a photo finish.

Returns from Cuyahoga County (Cleveland), where a massive primary day snarl complicated both the balloting and the counting, began to cut into the already thin Humphrey lead for the state's 38 at-large delegates to the Democratic National Convention.

In addition, the Cuyahoga County balloting faced a possible court challenge. Even if Humphrey's statewide lead held up, McGovern was running strongly enough around the state to win a significant share of the 153 Ohio delegates.

At midmorning, with the bulk of the Cuyahoga vote yet to be tabulated and only one-third of the Hamilton County (Cincinnati) vote counted before weary election officials went home until tonight, Humphrey led by 50 delegates, including a 13,000-vote margin for the at-large delegates, McGovern for 50.

The Cuyahoga returns, usually about 25 per cent of the state's Democratic vote total, seemed likely to settle the close contest.

Humphrey claimed the final results would show "a great victory in Ohio."

McGovern's camp, however, was equally confident. "I think we have beat him," claimed Frank Mankiewicz, the South Dakota senator's national political director. He added that the primary proved McGovern can do well in industrial areas. "We have demonstrated that Humphrey does not own the blue collar vote," Mankiewicz said.

There was one slight loser, Sen. Henry M. Jackson of Washington. A poor fourth after 2 1/2 weeks of slumping Ohio, he said he would follow the course of Sen. Edmund S. Muskie and stop campaigning in primaries.

Gotham Blast Kills 7

NEW YORK (AP) — A steam pipe exploding near the top of a Wall Street area skyscraper scalded four women and three men to death today and forced evacuation of the 50-story building.

The blast occurred at about 11:15 a.m. and blew out a wall on a corner of the 58th-floor offices of General Public Utilities Corp., at 50 Pine Street.

Two of the dead were said to have been outside auditors going over the company's books. The explosion left the corporation's suite littered with shrapnel, window blinds and other debris.

"It was a very gory sight," said a Fire Department official. "They were all scalded to death." He added, "They were

Red Troops Six Miles Outside Hue

SAIGON (AP) — North Vietnamese troops attacked within six miles of Hue today after setting a fire base north of the old imperial capital. Other enemy forces captured the last South Vietnamese stronghold in the northern part of coastal Binh Dinh Province.

A massive U.S. air armada of Air Force, Navy and Marine planes milled hundreds of strikes against North Vietnamese positions in South Vietnam sign of turning the tide.

In the heaviest raids in more than four years, U.S. fighter-bombers flew 618 strikes in all four military regions of South Vietnam, about two-thirds of them in the northernmost provinces of Quang Tri and Thua Thien in efforts to forestall an attack on Hue.

Following the debacle in Quang Tri, Lt. Gen. Hoang Xuan Lam, commander in the northernmost military Region-1, is being replaced by Lt. Gen. Ngo Quang Trung, who has no matter whom President Nixon on names to replace the 36-year-old bachelor, found dead in his home early Tuesday, badly battered at Quang Tri.

In there will be changes in the command said. Vietnamese marines abandoned Fire Base Nancy about 22 miles north of Hue, on Tuesday after a tank battle in which

identified pressure in the highlands to the west. The U.S. Command announced the loss of an 02 light spotter plane and two more Al fighter-bombers south of Quang Tri City, but said all three crewmen were rescued. This was the first of a series of North Vietnamese seized land in-cue operations for downed pilots and U.S. advisers caught in the fall of Quang Tri City.

The latest official U.S. Command figures listed 35 helicopters and 27 planes lost in Indochina since the North Vietnamese offensive began. The command said 22 Americans were killed and 18 wounded, with 47 missing.

Hoover Rests at the Rotunda

WASHINGTON (AP) — The Chief Justice Warren Burger, the body of J. Edgar Hoover, head of the FBI for nearly 46 years, goes on public view today in the eulogy at the funeral service at the National Presbyterian Church, which Hoover attended, at 11 a.m. Thursday.

Burial will be in Congressional Cemetery in the nation's capital, Hoover's final home. His only survivors are nieces and nephews.

Hoover, whose body was flown to Washington from a hospital in New York, died of "hypertensive cardiovascular disease"—an ailment linked to high blood pressure—although the immediate

cause might have been a heart attack. The body will lie in state until 9:30 a.m. Thursday.

Clyde A. Tolson, 72, Hoover's longtime associate and No. 2 man in the bureau, was named immediately to take charge. Nixon on was to name a acting director today, most likely a Justice Department attorney but not Hoover's permanent successor.

Nixon, speaking at the White House Tuesday, said every American owes Hoover "a great debt for building the FBI into the finest law-enforcement organization in the entire world."

Citizens Speak

By GLENN GAMBER (Herald Reporter)

The Board of Directors finally drew a crowd last night, the first one, other than the budget hearing April 3, since Democrats gained control of the board in November.

Most of the people who squeezed into the Municipal Building Hearing Room came to talk on one of two issues—the proposed town purchase of Laurel Lake for a sanitary landfill, and the proposed

extension of town sewers to Tolland Tpk., where a Holiday Inn is planned. While virtually everybody approved of extending the town's landfill, the directors heard considerable criticism of the proposed price the town would pay for the land and the proposed purchase method.

Most speakers on the proposed sewer extension spoke against it primarily because of the proposed method of financing the installation.

Lake Land Purchase At Issue

Buying about 100 acres of Laurel Lake to expand the town's sanitary landfill seemed like a good idea to virtually all of the people who spoke on the issue last night, but buying the land by 10-year lease and the proposed agreement and at the proposed price was criticized by many.

Richard Haggerty of a Green Hill St. said he was not opposed to the expansion of the landfill "in theory." He said he was being brought to the surface in an eventful cost of \$200,000.

Haggerty also objected to the proposed purchase method. Director William FitzGerald, chairman of the Board of Directors' refuse subcommittee, responded to some of Haggerty's questions. "That is the only piece of land available to the town," FitzGerald commented. He said, "There were arm's length negotiations conducted with the owners and that was the best price available."

If the town purchased the land in one shot, it would cost a total of \$200,000. Under a ten-year lease-purchase agreement, the town would pay \$60,000 a year for an eventual cost of \$200,000.

FitzGerald acknowledged that the per acre price is probably greater than the present use value, but he maintained that the value of the land would increase when filled so that the town could recover its investment.

Haggerty told FitzGerald that he had justified the need for the property, but not the price. He observed that the price of \$60,000 under a lease-purchase agreement would represent 30 per cent interest charge.

FitzGerald noted that past town counsels have ruled that a lease-purchase agreement is a "proper and legal" manner to purchase the land. Haggerty Idaho Gov. Cecil D. Andrus said he was not arguing over the legality of the proposal, but

24 Dead In Idaho

At least 24 miners died and 88 were unaccounted for today in the nation's richest silver mine after fire swept through mine shafts more than a half mile underground, an official of the Sunshine Mining Co. said.

Marvin C. Chasa, vice president and general manager of the mine, said he had no idea of the location of the 56 men who were unaccounted for. Earlier reports said 77 men were missing.

Shoshone County Sheriff Lou Gardner said 19 bodies were being brought to the surface in addition to the five mine officials said were removed from the murky shafts Tuesday.

The fire was believed to have broken out among timbers between the 2,400 and 3,700-foot levels of the Sunshine Mining Co. operation in this mineral-rich area of northern Idaho. More than 100 men escaped. Families and coworkers of the miners reported missing had died over warming stoves with the surface while rescue crews sealed off shafts they had checked but found empty.

First reports said 77 miners were unaccounted for. It was not immediately clear whether the death toll of 24 cited by the sheriff included some of the 77 missing miners.

About 100 rescue personnel were charting areas sealed behind bulkheads to keep flames from spreading into new portions of the mine. The rescuers also were working their way into other smoke-filled mine shafts as they tried to locate the missing miners.

Most of the families waiting for word in the chill dawn of day sat on chairs and the bare floor of a makeshift red cross center inside a storage building. Some miners kept warm through the night at diesel oil stoves scattered around the mine's main entrance shaft.

Under a developer's agreement, a party requesting sewer service to a particular area pays for the sewer installation. He is then reimbursed from assessments against property owners who tie into the line within 10 years. After 10 years, assessments are paid to the town.

Citing two alternate cost figures of \$27 and \$26.4 a running foot, Thomas said, "It seems to me a rather expensive proposition." He added, "I do not think the public works department has taken into account the people affected by the sewer. Please take into consideration the equities."

Roy Hagstrom of 230 W. Middle Tpk., an owner of Tolland Tpk. land, was represented by Eugene Kelly. Kelly claimed that the actual cost of the installation would be about \$20 a running foot and that the figures have been juggled in the town's favor.

The route proposed for the sewer is shown in the map on page 16.

Getting Drafted Was a Lucky Move Kissinger: Buck Private Promoted

Editor's Note: World War II awakened back patriot Henry Kissinger to the career that prepared him to be President Nixon's assistant for national security affairs. The following is third of a four-part series on Kissinger's life.

By GAYLORD SHAW Of The Associated Press Getting drafted into the Army may have been the luckiest thing that ever happened to Henry Kissinger. "You are unbelievably gifted," Kissinger says. "He told me I had a good political mind. It was a thought that had never occurred to me."

The Army brought Kissinger into contact with a new life and his ambition to be Henry Alfred Kissinger, certified public accountant, faded.

Instead, he was to become a student of international relations, Harvard professor, adviser to presidents and, some say, the world's second most powerful man by virtue of his control of the nation's foreign policy machinery.

As President Nixon's national security affairs assistant, Kissinger was closest to Nixon's side on the recent trip to China and will have the same position on the presidential trip to the Soviet Union later this month.

No such official visits were in view when Kissinger was drafted in 1943. Not yet 20, he worked at a shaving brush factory by day and studied accounting at the City College of New York by night.

The Army shipped him to North Carolina for basic training. After a series of tests disclosed that Kissinger possessed a high IQ he was selected to be among 3,000 bright young men who were sent for special training at colleges across the nation. Kissinger won't say what his IQ level is.

In late summer, a long slow train carried him back north to Lafayette College at Easton, Pa. He was there for eight months until the Army terminated the program under pressure from congressmen who thought the college campus was too easy a life for infantrymen.

"One of the great snafus," Kissinger now says. "A great case of negative selection." So he had another long, slow train ride, this time to Camp Claiborne, La., once again a back private in the infantry.

There, while he and his fellow privates were being drilled, he was acutely sorry for ourselves," he met Fritz Kraemer.

Kraemer, himself a private at the time, although he was 25, was a lawyer and the holder of two doctorate degrees. Assigned to give indoctrination talks to the young men he addressed Kissinger's unit.

Kissinger was so impressed that he did "something I had never done since" he wrote Kraemer a brief note "telling him I appreciated his talk."

A warm friendship quickly developed that remains strong today. By all accounts, including Kissinger's Kraemer was to have a profound influence on the young man who wanted to be an accountant. Kraemer, who later became a colonel, an authority on international politics and now an

Refugees, Deserters Flee As Enemy Approaches Hue

HUE, Vietnam (AP) — Refugees and military deserters fled southward from Hue today in one of Vietnam's biggest migrations.

Civilians packed trucks and stacked sandbags in the city of Vietnam's old warrior class.

Officials estimated 200,000 refugees and deserters remained in the city, 47 miles south of the front.

Thousands more were expected to join the southward march today.

The journey to the south took only seven miles in the southeast.

Refugees left behind a semiparalyzed city. Gasoline and food were becoming scarce and looting by deserters looted off a few minor run fights.

Haggerty also maintained that proper consideration has not been given to the ecological effects on the Hockanum River which abuts the land. He claimed the State Department of Environmental Protection to close the landfill. This would strike the town with a 10-year agreement and nothing to show for it, he said.

Obituary

Rush Dies, Officer Of Watkins Bros.
William Rush 67, of 214 S. Main St., treasurer of Watkins Bros. and owner of the Hockanum River Memorial Hospital, died of a heart attack at his home in Hockanum, Conn., Tuesday night.

Mr. Rush joined Watkins Bros. about 1916 and had managed the Hockanum store for many years. He served as secretary of the firm before his appointment as treasurer. He was a member of the National Association of Music Merchants, the per acre cost would rise to about \$30,000. He urged thorough investigation of the proposal.

Mr. Rush was born June 25, 1884 in Belfast, Ireland, and lived in Manchester most of his life. He was a charter member of Manchester Country Club and at one time was the Manchester tennis champion.

Let the owners look around for other buyers if they can find any," Lupton remarked.

He had been a member of the Hartford Rotary Club for "in principle" to expanding the landfill. He also observed that there are expenses of about \$2.5 million which would have to be made to utilize the land.

Mr. Rush also was a member of the Second Advent Christian Church of New Britain and the Newcomen Society of North America. He formerly served as president of the Camp Bethel Association in Hamden for 10 years.

His wife, Mrs. Lura C. Watkins, is the sister of C. Elmore Watkins and daughter of the late Clarence G. Watkins.

Kissinger: Up from the Ranks

(Continued from Page One)
an adviser to the Secretary of Army says:
"Henry had the misfortune of calling into my hands when he was a 19-year-old just out of the brass factory. For years he couldn't escape me—we were in the same dugout together in the recent days, sitting in his Pentagon office wearing his familiar monocle. Kissinger was not the usual back private.

"I took the man—I told him, you are something absolutely unique, you are unbelievably gifted."
Kissinger, who still sees Kissinger often, agrees with this recollection. "He told me I had a good political mind. It was a thought that had never occurred to me."

With Kissinger doing the maneuvering, Kissinger was assigned as an interpreter on a general's staff. Together they were sent to Europe in the closing days of World War II.

Lottery Ads

WASHINGTON (AP) — Sen. Richard S. Schweiker, R-Pa., today introduced legislation to exempt state-created lotteries from restrictive federal postal, broadcasting and gambling laws.

The bill "will enable states to more freely publicize lotteries, to exempt state-created lotteries from restrictive federal postal, broadcasting and gambling laws."

When the Americans moved into the Wichita family villa, young Jacob, his parents, their four other children and nursemaid Margaret Drink had to move into the cellar of the family brewery next door.

But Mrs. Drink recalls that Kissinger "allowed me to visit the villa almost every day to find provisions for the family and I found him very sympathetic. We often got American ration packages, with real coffee."

Kissinger says he remembers allowing Gorman families access to the headquarters villa, although such access was forbidden by regulations.

Recently, in gratitude, Josephine, now 85 and on the staff of the Eisenhower library, sent Kissinger a case of the dark "Malt Blue" which his family had brewed since 1838.

While in Krefeld, Kissinger showed such flair for government administration that he was soon put in charge of the district of Bergstrasse. Kissinger says the people of the region begged to keep Kissinger there. But he was later transferred to a post in the intelligence office of the European Community.

There his job was to teach Allied officers how to track down Nazis who had vanished in the confusion following the end of the war. His salary was a lofty, for that time, \$10,000 a year.

But the Kissinger intellect had been awakened, and he sought broader knowledge. For the second time in eight years, he crossed the Atlantic from Europe to America.

His first big job with the Justice Department was in World War II when he handled deportation proceedings against 200 "alien agitators."

His next assignment was as a special agent in charge of the FBI in New York City. He was in charge of the FBI in New York City during the early days of the Rosenberg case.

Devotion Marked Hoover's Career

By LEE BYRD
WASHINGTON (AP) — From the time he was a young boy, J. Edgar Hoover lived a life of devotion to duty and service to his country.

Even in his embattled final days, the 79-year-old FBI director's devotion to duty and service to his country was never lessened.

He was, said President Nixon, a "truly remarkable man," who had served eight presidents and 14 attorneys general with "unparalleled devotion to duty and dedication."

Hoover died, sometime Monday night at his Georgetown-style home on the edge of Washington's Rock Creek Park. Word of his passing triggered a vast collection of tributes from his friends and family.

But if there was one area where Hoover's devotion to duty and service to his country was most evident, it was in his public relations efforts to bring the FBI's public image up to par with the advent of bank and political reform.

Manchester Area Police Report

Larry G. Anderson, 25 of East Hampton, turned himself in at the Vernon Police Station yesterday and was served a bench warrant charging him with sale of controlled drugs and possession of controlled drugs.

The arrest was made in connection with an investigation conducted by the Special Services Squad of the Vernon Police Department and the Capitol Region Narcotics Squad.

Anderson was to be presented in Tolland County Superior Court today.

Vernon police are investigating two breaks, one reported Monday night and one early Tuesday.

Curtilage, Kenwood Dr., Vernon, reported last night that the glass in the rear door of his house had been broken and the house entered.

Police said a third dog was also involved but no arrests have been made in that case as yet.

Greenberg and O'Neill are scheduled to appear in Circuit Court 12, Manchester, May 15.

Romans invented the padlock, ending the burden of carrying large keys hooked over the shoulder.

Masonic Group Will Welcome Leader Saturday

A Scottish Rite Mason from a part of Connecticut and others from visiting states will be the guests of honor at the annual convention of the Grand Lodge of the Scottish Rite Masons of Connecticut, which will be held at the Hotel Norwich on Saturday.

George A. Newbury, 33rd, commander of the Northern Connecticut Consistory of the Ancient Accepted Scottish Rite, will attend the spring meeting.

This will be the first time in many years that the Valleys of Bridgeport and members of the Consistory of Norwich (Western Connecticut) will join with the Consistory of Norwich and Hartford (Valleys of Norwich and Hartford) to welcome the grand commander.

For the special occasion, three degrees will be performed at the Scottish Rite Cathedral at Norwich. The Norwich Consistory will also be present.

Arbor Day at Highland Park School

Indoor and outdoor observances commemorating the 100th anniversary of Arbor Day and its seventh annual local sponsorship by the Chamber of Commerce City Beautiful Committee were held Monday afternoon at Highland Park School.

As schoolmates and their mothers watch Wendy and Gary Swanson finish planting a flowering dogwood, the tree was presented by the school PTA to honor Mrs. Hugh Swanson of 221 Porter St. for her two years' service as PTA president and also celebrating their birthdays.

It is appropriate that Arbor Day should have had its origin in Nebraska, Hibbard said, because of the death of trees in the Plains States. It has been known for a long time, he added, that trees are beautiful, provide us with a number of materials, are the homes of wildlife, and prevent erosion by rain and wind, but in recent years two other uses have come to light. Trees are a natural form of air conditioning through their breathing, and they also reduce noise.

The State Senate gave final approval yesterday to a bill which would ease the way for the construction in Manchester of a regional occupational training center for the mentally retarded.

H.B. 6397, authorizing the transfer of four acres of Manchester Community College land to the town, passed by a vote of 18 to 10 in the Senate and was sent to the Governor for his consideration. The bill reported the House last week.

Speaking for the bill was Sen. Harry Burke of East Hartford and Louis Cuttito of Waterbury, both Democrats. Cuttito is chairman of the legislative finance committee, which gave the bill a favorable report.

Assembly Overrides Veto; First Meskill Setback

HARTFORD, Conn. (AP) — With strong support from GOP legislative leaders, the General Assembly has overridden one of Gov. Thomas J. Meskill's vetoes for the first time since the Republican governor took office in 1971, and revived a bill increasing the power of the legislative branch.

The House voted 136-23 and the Senate 58-22 Tuesday to override Meskill's veto of the bill creating the "Legislative Program Review Committee" to oversee the efficiency and effectiveness of state agencies and their programs.

In his veto message, the governor had said the proposed committee would simply be "another layer of legislative review" in addition to the existing committee structure.

In other legislative action, the House voted to kill bills aimed at abolishing the state's Highway Fund and creating uniform procedures for handling citizens' complaints against municipal police.

The Senate defeated a bill designed to postpone work on controversial interstate routes 201 and 96 in the greater Hartford area. The upper chamber also gave final legislative approval to a bill aimed at protecting small businesses that are part of large franchises.

In voting to override Meskill's veto, House Minority Leader Francis Collins, R-Bristol, said the new committee would give the legislature "the ability to go back at a program and see how it's working."

Senate Minority Leader Alden Ives, R-Morris, gave strong support to the measure, and said it is "an absolute necessity for any General Assembly to have the power of program review."

Tot Unharmed After Plunge

MERRIDEN, Conn. (AP) — A Meriden baby escaped serious injury Tuesday when he fell from a second floor window in his home.

Police said the mother, identified only as Mrs. Langlois, was holding her year-old son James near the window when she went to answer the telephone.

When she returned, according to police, she spotted the baby crawling around the back yard.

He was rushed to the hospital where he was treated for small abrasions and released.

Graffiti Scrubbers
NEW YORK (AP) — Family Court Judge Shirley Kram has ordered two pre-teen-age boys to spend time scrubbing from subway station walls graffiti they placed there with a paint-spray can.

Rather than place them in an institution for youthful offenders, Judge Kram said: "I wanted to give them the chance to adopt a responsible attitude, rather than to punish them."

Judge Kram is the mother of a teenage son.

Male Operators Training For SNET 'Equal Rights'

NEW HAVEN, Conn. (AP) — For minorities and women. The president of the Southern New England Telephone Co. announced Tuesday telephone users "will be hearing more and more male operators and seeing more women installers in the future."

"We have a good record of providing opportunities for the equalization of the sexes and minority people," Van Sinderen said. "In 1968, 639 women in the company held management jobs. Today there are 1,044 women in management jobs. Today there are 1,044 women in management jobs. Today there are 1,044 women in management jobs."

He said the company's goal is to revise employment and promotion policies so that its employee makeup is brought into proportional balance with the makeup of Connecticut's labor force by 1978.

Van Sinderen said the timetable was filed Monday with the federal government which requires that contractors doing business with it file plans for action to equitize opportunities

No-Smoking Decision Grips Like Lost Friend

DALLAS, Tex. (AP) — It was anything as meaningful or painful as a funeral that day in New Canaan, Conn., when the housewife therapy groups had to stop smoking.

After helping them kick the habit, their psychiatrist concluded the inability to cope with the grief of losing a dear friend—the cigarette—in one woman were back to their prior smoking levels and the group averaged 14 cigarettes a day.

"Just as in the area of alcoholism, long-term support is indicated and a voluntary, non-profit organization modeled in some ways on Alcoholics Anonymous might be useful," Tamerlin said.

Tamerlin, director of research at the foundation's private psychiatric hospital, told the psychiatrists about working with 16 women divided into three therapy groups.

As the noncigarette days wore on, the women acted much like mourners at a funeral, comforting one another through their tears, he said.

"A transient period of grief with considerable tearfulness appeared as an almost routine clinical accompaniment of the cessation process," Tamerlin said.

Tamerlin said one woman likened giving up cigarettes to the loss of a dear friend. Another said, "I think my cigarettes are more like a lover than a friend. I see this as a terrible, personal loss."

As the 14-day therapy neared an end, success came to the former smokers when they learned to recognize, accept and then "work through" to an understanding of their loss and grief.

"The dynamics of grief and loss appeared to be central to the entire cessation process," Tamerlin said. "Subjects generally agreed that they had never before in their lives given up

Franchise Law Clears Assembly

HARTFORD (AP) — Legislation aimed at "firmness in franchising" for gas stations, small-chain restaurants and other businesses cleared the General Assembly Tuesday.

The measure would prohibit large businesses from canceling franchises with smaller ones without giving at least 90 days' notice.

Operators of service stations and restaurants that are part of chains had complained of unfair termination of franchises and other practices of some companies.

The bill applies only to franchises entered, renewed or amended after Oct. 1.

The measure also provides that, upon termination of a franchise, the company must give the operator fair compensation for his inventory.

Passed by a voice vote in the Senate, it now goes to the governor.

Anniversary of Revolt May Cost Billion Dollars

WASHINGTON (AP) — A ten-part anniversary celebration of the 1976 bicentennial of the American Revolution may be too costly at \$1 billion or more, senators were told Tuesday.

David J. Mahoney, chairman of the American Revolution Bicentennial Commission, said the ARBC executive committee would find it "difficult to recommend" such a large fund outlay for the 175th celebration at Philadelphia.

He held a Senate Judiciary subcommittee that the executive committee probably would make a recommendation in about two weeks.

Preliminary estimates made for the committee Monday indicated an international celebration may cost \$1 billion or more, Mahoney said.

Mahoney urged the subcommittee to approve legislation to authorize \$672,000 for the bicentennial commission for the fiscal year beginning July 1.

This would include \$412,000 for commission salaries and expenses and \$260,000 for grants to states in planning centennial participation.

Sen. Roman Hruska, R-Nebr., asked Mahoney to submit details on the \$412,000 figure. This was promised.

Hugh A. Hall, ARBC deputy executive director, said the figure would include salaries for the tour.

Dooley Asks Legislative Reform

"The 1971 session of the General Assembly was probably the most tempestuous, violent and chaotic session of any legislature in the state's history," Thomas Dooley (D), Vermont's representative told the Vermonters at a luncheon meeting Monday.

Dooley's talk, "Crisis on Capitol Avenue: A Freshman's View," focused on the need for legislative reform. As a candidate for the House in the 1972 election, Dooley said there is still a long way to go.

Referring to the 1971 session, Dooley said there was a split between Republicans and Democrats and the Democratic controlled house and senate, between the Senate and House in the case of both parties and between urban and suburban and rural legislators.

Dooley also criticized the actions of the legislators concerned. He said that while it may seem to stop being legislative and start being legislative, but most of all strongly out, to vote against the raise,

It was not. He said there were supposed to be restricted to five of the 12 of the Democrats who called the No-Fault Insurance bill, the bill to allow booting in 1971 session included passage of the state and the 15-year-old and repeal of the income tax majority bill. Still pending are reorganization and abortion bills. Dooley said, "I am not."

'Broadway Limited' Rides Amtrak Rails

NEW YORK (AP) — Amtrak, the new national passenger railroad agency, is trying to modernize the railroads by recapturing forgotten notions of old-fashioned comfort. The famed Broadway Limited, which departed from New York Tuesday, for an "inaugural" excursion to Chicago is the latest example. It's the first of a fleet of refurbished trains—equipped with air conditioning, carpeting, plush luxurious compartments and other amenities—due to be introduced by Amtrak. The railroad hopes will make the scene within the next year. Back in the '50s, you could board the original Broadway Limited and treat yourself to a new bath in the mobile bathroom, the bright blue dining car, the parlor, have your nails manicured, take a shower to the beat—eat—share the dining car with movie stars.

WORLD ALMANAC FACTS
One-way rail coach fare from New York to Chicago is now \$21.25 and the first class one-way air fare is \$59 coach \$78 first class. Despite the best efforts of "stewards" like Lewis, a former social secretary to Playmate publisher Hugh Hefner who was circulating drinks, not all passengers were charmed by the train's amenities.

Fireman Adopts Rescued Child
BALTIMORE (AP) — As is usual in these cases, fireman Louis C. Jordan was given a commendation Tuesday for rescuing an infant boy who had stopped breathing. Later, the child recovered and was put up for adoption because the mother was unable to keep the child and Jordan was given custody. "Commendation?" said Jordan. "I've got my reward already and he's doing fine."

Reaction Mixed on Nixon In Press Comment Abroad

By THE ASSOCIATED PRESS
President Nixon was praised for firmness and accused of cynicism and of playing politics with war in widespread foreign editorial comment last week about the Vietnam conflict. The successful moon flight of Apollo 16 prompted the Times of India to observe that moon journeys are no longer sensational but thrilling, nevertheless. Without minimizing the efforts of astronauts and ground controllers the Times said it wanted to pay tribute to "the bivy of computers which wring safety and accuracy out of danger... the human-electronic partnership is truly fantastic." The London Daily Mail's New York correspondent had harsh words for American television. "The Bangkok Post said Nixon greets that he brings peace and stability to Indochina... but this is an election year. He is now project to all sorts of domestic pressure and may be forced to decide between true world interests and personal political interests. How he responds will be measured by the man... steadfastness on the part of Mr. Nixon—a steadfastness as firm as that of Moscow—in essential if the peace talks are to result in a peaceful settlement serving the legitimate interests of all parties in Indochina."

Squeeze on Rock Maple Isn't All So Sugared

PORTLAND, Maine (AP) — A Japanese passion for bowling is creating a problem for Maine's hardwood furniture industry. Forest Commissioner Austin Wilkins says the Japanese are offering "unrestricted prices" for rock maple, which they use to construct bowling alleys and export, but we can't, Washburn said. Rock maple, also known as a white oak, Washburn said, is the mainstay of Maine's \$16 million a year furniture business. Wilkins contends there is a serious problem in rock maple markets even before the recent off-bowling craze hit the Nipponese market. "But the Japanese market has compounded the problem," Wilkins said in a telephone interview. A spokesman for Hrusavick, a large manufacturer of bowlers' equipment, said the Japanese have gone crazy over "bowling" and are building some 20,000 lanes a year. That demand has created a need for a market for rock maple, said Charles M. Washburn, president of Maine Forest Products Council 100 years to mature. He has sent letters to Japanese firms offering \$700 per thousand board feet for the green rock maple. "The thing that concerns us—the thing that should concern everybody in Maine—is that the Japanese are draining off a natural resource that can't be re-vegetated to control stumpage plentiful."

You never perked anything like this before.
Max-Pax is real ground coffee packed in its own filter. It's a whole new way to make coffee. For the best results possible:
Brew 8 minutes for milder coffee, 10 minutes for a heartier brew.
Never use high heat. Use only low heat as soon as perking begins. After perking, let pot stand for 2 minutes before moving. If reheating, remove basket, use low heat, never boil.
With electric percolators use strong setting.
Max-Pax. It's the difference between good coffee and great coffee.

Oil Spill Precautions Aimed at All Shipping

HARTFORD, Conn. (AP) — Another proposal would require the Coast Guard to install emergency cutoff systems at all oil-carrying ships and barges and emergency procedures to be required to install a handle spillover.

In addition, the oil companies would have to provide a communications system between the shore and a ship offloading oil and provide interpreters to enforce the regulations, if they are passed, the companies would have to obtain permits from the Coast Guard after showing they had complied with the new rules.

Another proposal would require the companies to construct certain oil-transportation regulations without further approval of tests and spillage if under the 1970 federal Water Pollution Control Act.

A fifth regulation would require that if they are built from dumping their oil into effect, they will greatly reduce pollution. Even if the tanks oil, while they are in U.S. territorial waters, the regulations would require shipboard man.

He said the regulations could take effect 60 days after approval.

Court Cases

CIRCUIT COURT 11

Manchester Seaman
Stephen J. Dowling, 20, an inmate at the Chester State Reformatory, received 10 two-year sentences for ten counts of obtaining money under false pretenses, at Monday's court session.

Dowling also received a one-month term on a charge of larceny.

Judge Stanley Teukerwitz specified that the sentences would run concurrently with Dowling's present sentence on other charges.

The larceny charge, police said, stems from a theft of cash from a Manchester service station last summer. The other charges were in connection with the cashing of stolen checks.

James H. Shamba, 24, of 27 Lilley St., failure to grant one-half the highway, fined \$50.

Robert J. Talbot, 28, of 454 Main St., breach of peace, pleaded guilty, fined \$35.

Charges of third-degree assault and being found intoxicated were not.

Vandalism Repairs Could Cost \$15,000

The cost of labor and materials to repair interior and exterior damage to schools, the result of vandalism, may run as high as \$15,000 this school year, Theodore Fairbanks, supervisor of buildings and grounds, estimated in a report to the Town Building Committee last night.

Repeating glass in the great-est expense, he said, with an exceptionally large amount broken this year at Manchester High School. Two men have spent five months doing nothing but replacing broken windows at a total cost of about \$12,000, he noted, divided between salaries of \$5,500 and materials costing \$6,500.

To deter and curtail vandalism, Fairbanks recommended more lighting; more fencing, which he admitted is costly; and alarm systems in every school.

"The Verplanck School alarm has cut vandalism to almost nil," he said. Before its installation, damage from two incidents

stiff. They looked like clothes hangers.

The official, Robert Perez, secretary of the Fire Department, said a fitting on the pipe broke and sent the high-pressure steam vapors boiling through the rooms.

A disaster unit from Bellevue Hospital went to the scene.

Mayor John V. Lindsay, whose City Hall office is near the site, said the school is closed for a few days.

The accountants reportedly Fairbanks will canvas area and associated with Lybrand school systems for information on the effect that improved lighting has had on deterring the utilities company, told vandalism, and will obtain more details on a number of the newsmen a giant rumble preceded the explosion.

Student Nurse Loan Marking 20th Year

The Manchester Student Nurse Loan Association celebrated its 20th anniversary last night at its annual dinner at the Doctors' Dining Room at Manchester Memorial Hospital.

About 30 students and committee members attended the dinner and, later, were given a little background and a demonstration as to what happens behind the closed doors of the Manchester Memorial Hospital.

Since the inception of the organization, 100 students have benefited from the funds received by the association.

Two Charged in Car-Cyclist Accident

A second Manchester person has been arrested by East Hartford police as the result of a late Sunday night car-motorcycle accident on Brewer St. in East Hartford in which the motorcycleist lost an arm and sustained a broken leg and other critical injuries.

Arrested at about 1 a.m. Monday by Manchester police and turned over to East Hartford was Eugene K. Smith, 17, victim was Vernon C. Pecker, 190 Spruce St. He allegedly fled the scene of the accident and was charged with evading responsibility. He was arrested left arm, severed at his elbow.

Three Face Vandalism Charges

Three Manchester youths were arrested this morning on charges stemming from recent vandalism at East Cemetery.

All three were charged with third-degree burglary and second-degree criminal mischief. They are Anthony Carabino, 16, and his brother Bruce Carabino, 17, both of 12 Glenwood St., and Michael Partezano, 16, of 66 Florence St.

Police said the arrests are in connection with recent ransacking of the cemetery office, and painting of exterior and interior office walls as well as painting of several gravestones.

The vandalism was discovered by police early in the morning of April 22. The office was found smashed open, and gravestones and other markings had been spray-painted on the building and gravestones.

Partezano was held on a \$1,000 surety bond pending appearance in Circuit Court 12 at Manchester today. Both Carabinos were released on \$500 non-surety bonds for court appearance May 15.

Partezano was also arrested on a Circuit Court 12 warrant charging him with taking a motor vehicle without the owner's permission, and evading responsibility, in connection with an unrelated incident.

Police said these charges stemmed from an incident early Sunday morning in which a stolen car allegedly operated by Partezano was involved in an accident on Walnut St.

Police said the car, missing from the Army-Navy Club on Walnut St., ran over two trees on Walnut St. and smashed into a rear porch at 181 Walnut St. Anthony Carabino was also arrested in connection with the stolen car accident, and is charged with taking motor vehicle without the owner's permission.

Court date is May 15.

Motor vehicle arrests by Manchester police yesterday included:

Roy E. Webber, 74, of 940 E. Middle Tpk., charged with operating a motor vehicle while his license is under suspension. Court date is May 15.

Kenneth Falge, 20, of 130 Cooper St., charged with failure to register a school bus. Court date is May 15.

Police reported that an unidentified motorist ran over a chain link fence at the East Cemetery yesterday, causing \$250 in damages.

A witness said a beat-up car drove through the chain link fence, knocking down a 30-foot section, and continued driving south of Autumn St.

Coventry GOP Led By Pruitt

Robert Pruitt, 35, of Forge Rd. was the unanimous choice for chairman of the Republican Town Committee at its organizational meeting last night.

Pruitt was elected to a two-year term, and replaced Leonard Benjamin in the post. Benjamin had announced several weeks ago that he did not wish to serve again.

The rest of the slate of officers was also elected unanimously, with Margaret Jacobson chosen as vice-chairman, replacing Barbara Carr. Joe Shanahan will serve again as recording secretary, with Allen Stenberg as corresponding secretary and Gertrude Haven, treasurer.

Both Benjamin and Mrs. Carr received a rising vote of acclamation for their service to the town committee, upon leaving office.

Pruitt noted several recommendations that he feels are "reasonable and attainable goals" for the GOP in the next two years.

He hopes to implement the concept of area, or ward, coordinators, he said, and initiate a monthly newsletter. A new voter registration drive is also planned and Pruitt said he would also like to see a more representative cross-section, particularly in terms of age, on the town committee.

Fund raising efforts and publicity are two other goals, as well as the suggestion that officers of the Town Committee be limited to two consecutive terms, a move, Pruitt feels, that might "remove the complacency" and encourage members to serve on other town boards and agencies.

A key goal will be to interest more registered Republicans in serving in all capacities within the town government. The new chairman was a Coventry resident for seven years, and is a salesman for the Abel Transmission Co. of Farmington.

He is a member of the Coventry Rotary Club, and has served as its president. He is an active member of the Young GOP and has served on both finance and campaign committees for the town committee in the past.

A native of Lebanon, Miss. Pruitt graduated from high school in Washington, D. C., served four years in the Navy, and attended the University of Hartford.

He and his wife, Sandy, have three children. Republicans have also selected delegates to upcoming conventions.

Delegates to the State Convention will be held at the Walter Thayer, Larry Knight, Frank Blason, and Benjamin, Second Congressional District delegates are Ed Lawton, Alma Heckler, Everett Frost and Jesse Williams.

Attending the State Senatorial convention, if one is held under the current redistricting, will be David Rappe, Frank Perrotti, Robert Peterson, and Shanahan.

Assembly District delegates, if that convention is held, will be Hugo Tomason, James Ladd, and Benjamin.

The present executive board of the Bolton Junior Women's Club will meet with next year's meeting tomorrow night at 8 at the home of Mrs. Charles McCarty, Laurelwood Drive.

The new executive board will assume its duties at the club's annual banquet to be held May 25 at Plazo's Restaurant.

The Bolton Volunteer Fire Department will meet tonight at 8 at the recreation building at Herrick Park.

The library board will meet tomorrow night at 8 at Community Hall.

A Lucky Winner on That Card

Miss Manchester of 1972, Laurie Lee Osgood, draws the names of the seven winners in Butterfield's "All in the Family" Contest as Butterfield's director, Warren Davis, looks on. Winners were drawn every hour on the hour. It was not necessary for the winners to be present at the Manchester Parkade Store at the Saturday drawings. The winners, each of whom will receive \$500 in this anti-harmer merchandise, are: From Manchester, Mr. and Mrs. William L. Leonard of 55 Bilyeu Rd., Mr. and Mrs. Everett Kelsey of 28 Autumn St., and Mr. and Mrs. Louis Vince of 9 Gardner St.; from Andover, Mrs. Edith Budrick of Rockledge Dr.; from Mansfield Center, Mrs. Alice Wollenberg; and from East Hartford, Mr. and Mrs. Lewis Acqua and Mr. and Mrs. Henry L. Tillotson.

Bolton Selectmen Renewing CD Plan

Bolton selectmen are reviewing a comprehensive Civil Defense plan for the town submitted last night by CD Director Richard Quimby. The plan, which has been adopted from the state wide CD plan conceived by Col. William Dickson, outlines organization and procedures for the town to follow under both emergency and non-emergency conditions.

Under the provisions of the plan, responsibility for the CD program would be divided among the CD director, his advisory council and the Board of Selectmen. The council would be composed of representatives from the board of health, senior citizens, welfare department and already using oil which is less than 1/2 of one per cent sulphur which would be assigned special duties during an emergency.

Using the senior citizens as an example, the plan suggests that during a crisis, senior citizens would man telephones and assist with care of injured children. Detailed consideration is also given to the problem of maintaining continuity of government during an emergency.

The plan divides its emergency phase and recovery phase. Detailed consideration is also given to the problem of maintaining continuity of government during an emergency.

Stamps In the News

BY SYD KRONISH AP Newsfeatures

This is the bicentennial era and U.S. postage stamps will help celebrate the event annually until 1976.

Four colonial craftsmen will be featured on this year's stamps...

The glass blowing stamp shows an artisan making a near opaque soda-lime glass...

The silvermith illustrated is tapping a teapot against an anvil to smooth the rim...

The wig-in construction is a "bagwig" of Williamsburg, most popular in colonial days...

The hat in the illustration is a top hat, the type of hat created by Paul Revere about 1780...

First day cancellations should be directed to the postmaster...

Many nations are issuing stamps to honor the World Heart Campaign...

Belgium's stamp depicts a world globe with a heart superimposed on it...

First day cover collectors will be interested in "First Days" magazine...

Did you know that... in 1809 the U.S. Post Office lowered rate on mail for blind persons...

Evangelism Congress VERO BEACH, Fla. (AP) — A group of evangelists from five continents...

They said its aim will be to call the church to "rethink the task of proclaiming the Gospel to the world in our generation."

A similar "congress" was held in Berlin in 1966.

Bolton Fund Raisers Give Excuse For Cleanup

Several fund-raising events are planned in Bolton this week-end and each should inspire residents to do some spring cleaning.

The Parent-Teachers Organization at the elementary school is planning an outdoor flea market Saturday from 10 a.m. to 3 p.m. on the school grounds.

Many Bolton residents have rented space at the market to sell their attic treasures. Several local artists and craftsmen will exhibit and sell their wares, according to ways and means chairman Mrs. Robert K. Brown.

During the flea market, members of Bolton's cadette girl scout troop will hold a car wash in the elementary school driveway.

High Illegitimacy Every eighth New Zealand baby is illegitimate and one in five is conceived out of wedlock, according to new Health Department statistics.

Fingering the Criminal Harriet, victim of a mugging, was summoned to police headquarters to view a lineup. One of the men looked vaguely familiar, but she felt too doubtful to pick him out.

Witnesses to a crime are often asked to select the culprit out of a police lineup. As a means of identification, the lineup—usually consisting of prisoners or plain-clothes policemen—is widely approved.

However, to be constitutional, the procedure must be carried out with basic fairness. Police must not "stack" the lineup so as to draw special attention to the man they suspect.

In another case, the suspect was the only one in the lineup wearing a jacket. Admittedly, this made him conspicuous to some degree. But a court upheld the procedure anyway, since the jacket happened to be the man's regular attire.

Further, even if the suspect is conspicuous in one respect, the witness may have other legitimate reasons for identifying the suspect. For example: the witness may have noticed a lineup while wearing distinctive clothing. But the witness who did not identify the suspect was the only one in the lineup wearing a jacket. Admittedly, this made him conspicuous to some degree. But a court upheld the procedure anyway, since the jacket happened to be the man's regular attire.

 East Catholic High's hitting came alive yesterday afternoon as the Eagles blasted the South Catholic Rebels 8-6, at Highland Park in Hartford. It was a come from behind victory for East which has now won three games in a row. Overall, East sports a 2-3 mark and is 1-1 in the Hartford County competition. South dropped to 4-3 overall.

Slow Pitch Softball
 The Rebels made a comeback in the bottom of the eighth and an error allowed two more Rebels to score. East came back in the fifth with two outs. Gorman doubled to right and Dan Pinto followed with a walk and Russ Biloescu reached on an error. Up stepped McKeon to the plate. He unleashed his brute power on the first pitch and slammed it out of the park for a grand-slam home run. It was the homer of the variety career. "That was the most dramatic home run I've seen in four years at East," commented Eagle Coach Jim Pendera. "I went off the bat faster than I've ever seen."

 BUT WHEN HE MAKES HIS OWN DECISION—MAN—WHY DOES HE GET IT?

WHICH SHIRT SHOULD I WEAR? THE PINK STRIPED OR THE BLUE?
 ON FRENCHMAN'S NAME, I'D LIKE TO WEAR THE PINK STRIPED JUST WEST LOOMS BEST

THAT'S THE WAY WITH THAT SHIRT—THE PINK STRIPED TASTE THAN A FUCHERD PERISHMENT PICKER.
